Academic Guardians UK Ltd – Mental Health & Wellbeing Statement

Mental Health & Wellbeing

We respect the rights and dignity of all of our young athletes and acknowledge that everyone who is involved in our organisation has mental health and wellbeing needs.

As part of our commitment to ensuring we take mental health and wellbeing into consideration in all aspects of our sport, we're working towards making sure that:

we support our staff to hold some level of mental health and wellbeing awareness training

we demonstrate how our staff can be welcoming towards people experiencing a problem with their mental health and wellbeing

we respect that everyone needs to take care of their mental health and wellbeing and that some of us may need more support than others

there are key members of staff (welfare officers or other designated roles) in our organisation who are happy to discuss how our sport can be adapted to suit your mental health and wellbeing needs or how we can be more inclusive

we regularly ask all our young members if they are happy with the level of support, they receive from us and whether it could be improved in any way

as an organisation, we recognise how the pressures of competitive sport can affect young people's mental health and wellbeing

all staff know the details of the mental health and wellbeing support services available to both staff and young people

all staff know how to raise concerns to protect young people who are experiencing a mental health crisis or identifying as at risk of self-harm or suicide as part of our safeguarding reporting procedures*

support and information on mental health and wellbeing continues to be shared as young people progress on the talent pathway and the potential pressures of funding, sponsorship and achievement come into play

Addressing Suicidal thoughts and feelings

People involved with AGUK can help by:

- recognising the risk factors
- learning how to talk with a young person in crisis
- know how and who to refer to obtain support

Risk signs

Young people experiencing suicidal thoughts and feelings might display changes in behaviour, physical

appearance or in performance. Some of these changes might include:

- becoming isolated or dropping out of activities
- seeming confused or distracted and unable to complete tasks they usually would with ease
- a sudden halt in performance development
- neglecting their appearance including personal hygiene or clothing
- persistent physical complaints like chronic pain
- sudden or extreme weight loss or weight gain
- acts of self-harm
- feelings of hopelessness
- feeling like a failure and being very self-critical
- decreased interest in making plans for the future
- a previous suicide attempt

If you recognise any of these behaviours, it's important to create a safe space for young people to talk. Try to make time during practices or sessions and let young people know that you're available to listen.

People in our organisation you can talk to
